

## **A Christian School**

Set in the surroundings of beautiful hills near Mkushi, Chengelo offers quality Christian education for your child away from all the many temptations and stresses of city life.

Chengelo Primary School is founded on Christian principles. Parents choose Chengelo Primary School because they recognise we provide a firm grounding in moral and spiritual education. We believe that without a personal knowledge of God, a child's mental, physical, social and spiritual development is incomplete.

Our staff are all committed Christians and all we do is rooted in Christian principles.

## **Quality Education**

Chengelo Primary School provides:

- a broad curriculum including English, Maths, Science, ICT, Social Studies, R.E., P.E., Art and Design, Music
- high quality teaching
- development of leadership skills
- focus on spiritual and personal development

We use the National Curriculum from England, adapted to meet the needs of Zambian children. Our pupils are well-prepared for Chengelo Secondary School, which has exceptionally good results at International GCSE and A level. Students go on to study at UNZA and universities around the world.

## **Care for your child**

With your child away from home, we offer excellent care in pleasant hostels with friendly house parents.

Two spacious hostels are home to weekly and termly boarders, where they are cared for in a secure and family-like environment.

There is also a clinic on site with qualified nurses to attend to any health issues.

## Outdoor Education

Chengelo Primary places great emphasis on outdoor education. We believe a child develops more through a wide range of such activities than just by class-based lessons.

The children learn personal, team-work and leadership skills. In this way we can fulfil the school's vision of training your children to be future leaders.
